

I am quite upset to hear that Sinclair is insisting that its local affiliates air what is clearly a Bush campaign movie, bashing Kerry, as regular programming. Neither Republicans nor Democrats will benefit if this sleazy kind of trash takes over from information programming. Remember spin is just a cute word for lies. The people have had about enough of this junk.

Broadcast media are slipping away from anything that could reasonably be called a duty to the public interest.

Please take whatever action possible to stop this kind of thing. (It is time to reexamine the "Fairness Doctrine.") A democracy requires, demands, high quality information. Please play your part in assuring this. Lax media ownership rules are doing great harm. The renewal of licenses has got to be returned to the service of the people in this democracy.

Thank you for your consideration.
